

THE RESPONSE INTELLIGENCE PLATFORM™

From Detection...to Decision...to Action.

Assisted Response combines intelligent detection, immediate visual verification, resilient communications, and trained professionals to deliver faster response and better outcomes when every second matters.

DETECT

Know the moment something happens.

VERIFY

Instantly see and understand the situation.

RESPOND

Activate the right people with the right information.

FASTER VERIFICATION
Confident decisions in seconds.

FASTER DECISIONS
Verified intelligence reduces response time.

BETTER OUTCOMES
The right information to the right people.

SAFER COMMUNITIES
Stronger protection for people and property.

DETECT. VERIFY. RESPOND.

ONE PLATFORM. COMPLETE RESPONSE.

The Response Intelligence Platform™ integrates advanced hardware, intelligent software, and a 24/7 Assisted Response Center to turn uncertainty into informed action.

ACTIVE SHOOTER DETECTION DEVICE

Ultrasonic sensors, thermal detection, and 360° coverage detect gunshots from every angle and verify the event.

EVO CONNECT+™ POE ETHERNET BOARD

PoE-powered Ethernet connectivity delivers power and data over a single cable for reliable, secure communication.

DETECT

- Active Shooter Detection
- Trigger Point Assist Button
- AI Analytics
- Environmental Sensors

VERIFY

- ProView EVO™
- 360° Visual Verification
- Thermal Imaging
- AI Verification

RESPOND

- Assisted Response Center
- Dispatch & Escalation
- First Responders
- Enterprise Notifications

TRIGGER POINT ASSIST BUTTON

IP-based, capacitive touch button instantly activates visual verification and coordinates Assisted Response.

EVO CONNECT+™ CELLULAR

Resilient cellular connectivity over AT&T, Verizon, and T-Mobile keeps you connected when it matters most.

ASSISTED RESPONSE CENTER

The Human Intelligence Behind the Platform

- 24/7 Professional Monitoring
- Event Verification
- Image Review
- Intelligent Decision-Making
- Dispatch & Escalation
- First Responder Coordination

SCHOOLS

Protect students, staff, and campuses.

HEALTHCARE

Enhance safety for patients and staff.

VENUES

Secure events and large gatherings.

ENTERPRISE

Safeguard people, assets, and operations.

PUBLIC SECTOR

Build safer, stronger communities.
